Select the proper rating committee

Chuck Wennerlind of

Make sure you select the correct rating committee for the rating committee you are on. The selection box is located near the top left of the screen and should be directly below your name. Several people or on different committees. Only committees you are authorized to rate for will be in the list. You will need to select Spokane to rate for the Spokane committee and WA PAC for the Washington state committee. The system should not allow ratings from the wrong committee. Ratings entered from the wrong committee will show as "Other" and will not officially count.

Election
2015 General Election

Make sure the election box is set to the proper election.

Juristiction
No Chapter

Set the Jurisdiction box to the county you are rating for. The Washington committee can select No Chapter to see areas not covered by current chapter committees or ones in several counties.
